WHO'S WATCHING

80%	75%	91%
in the United States	aged 25 to 54	men

The biggest age group is 35 to 44. They find the videos by searching for a drink, a bottle or a piece of gear, which means they show up already deciding what to make or buy.

WHY SEARCH MATTERS FOR YOUR PRODUCT

> Most creator content peaks in a week. Mine is built to be found later. A 23-second Short I posted in September 2023 about a skull cocktail smoker has **19,000 views, and 15,000 of those came in the last 12 months**, three years after it went up. A product video that keeps getting found keeps sending shoppers to your listing long after a campaign window closes.

THE SITE

cocktailunderground.com gets about **7,200 visitors a month, 87% of them from search**. Recipes, roundups and reviews are written around what people type into Google, so a product page keeps getting found.

Shot in a home kitchen on a Sony camera with proper lighting, clearly disclosed, and I'll send a link when it's live.

GOOD FITS
